Group Activity	
Croup Activity	
At your tables, list:	
• 1-2 advantages of keeping services in-house	
• 1-2 advantages to outsource	

In-house Advantages

- Continuity
- Staff loyalty and dedication
- · Flexibility in staff utilization
- · Emergency response capability
- · Lower costs (sometimes)
- · Responsiveness
- Quality of work/pride
 Security
- Mutual Trust
- Customer Interaction
- Organizational Cohesiveness
- Knowledge transfer

10

Contract Advantages

- · Avoid capital costs
- Obtain specialized or
- infrequently required services Meet peak workload demands
- · Lower costs (sometimes)
- Obtain management resources of a large, specialized organization
- · Volume purchasing power
- Avoid inventory requirements
- Eliminate support space requirements
- Greater flexibility in adjusting to changing service level needs
- Avoid personnel management requirements

1 1

Contracting Considerations

- Public/private
- · Procurement delegation
- Urban/rural
- Union/non-union
- · Economic climate

Contractual Procurement Procedures	

Competitive	Bidding
(IFB)	

- · Compete solely on basis of price
- Award to responsive and responsible contractor with the lowest offer

Competitive negotiation (RFP)

- · Qualitative evaluation
- Negotiate on basis of specific selection criteria
- May or may not include price
- · Mandatory/preferred terms

2 3

RFP Score Sheet

2	4
_	•

Negotiated or "Sole Source" contract

- Direct negotiation with single vendor
- · Justification required in public sector

2 5

Defining Contractual Requirements

MUST DEFINE

- · What we want
- · How much
- Standards of quality & performance

CAN DO THIS BY:

- Plans/specifications
- Statement of performance objectives or standards
- General statement of
- requirements

26

Obtaining Offers

- · Advertisement
- Solicitation
- Pre-bid /pre-proposal meeting
- Addenda
- · Type of offer

7	7
_	•

Formal Contract

- · Plans and/or specifications
- · Request for bid/proposal document
- · Contractor's offer/proposal
- Bonds
- · Terms or conditions negotiated following selection of contractor

28

Contract Management

- · Contract Administrator
- Pre-performance conference
- · Inspection procedures
- · Performance incentives/penalties
- Payment
- Claims and disputes procedures
- · Renewal procedure

29

In-house services

Loyalty

- Dedication
- Continuity
- Flexibility
- · "Corporate knowledge"

PERCEIVED ADVANTAGES

- "It takes too long"
 "It costs too much"
- "My neighbor is a ____ and he could have done it in half the time"

To be suc	cessful, an	instit	ution's
decision	process nee	eds to	be

- Performed within the context of the institution's mission and culture
- Seen as a strategic choice
- Consultative and inclusive of customers, functional area specialists and administrators
- Able to qualitatively and quantitatively define the institution' requirement for the functional area's performance
- Balanced and cognizant of all management/operating alternatives

At the end of the day...

"Only the provision of a service can be contracted for, not the responsibility for it".

"In the eyes of the consumer, the ultimate accountability will always rest with the institution."

- There is a contract alternative
- Understand the advantages and disadvantages of the alternatives
- · Understand contracting principles
- Recognize perceptions/seek reality
- · Inject competition

Difference between renovation, restoration, preservation and maintenance	
Current historic restorations on the Lawn	

	VARIOUS DEFINITIONS OF
	"HISTORIC"
	DEFINITION OF HISTORIC PROPERTY FROM SECRETARY OF THE
	INTERIOR STANDARDS
	A district, site, building, structure or object significant in American history, architecture, engineering.
	in American history, architecture, engineering, archeology or culture at the national, State, or local level.
3 7	
	UVA's "Historic" Structures
3 8	
	Evaluation Methodology
	One goal of the Historic Preservation Master Plan was to develop a ranking of historic structures and landscapes which lasts them with respect to their importance to the University's historic development and character. To establish the list an amornach was developed which diseased all of the resources to be infraed in a
	To establish the list, an approach was developed which allowed all of the resources to be judged in a consistent manner. This required understanding how the building or landscape fit within the history of the University and included an interior and exterior survey of each building or landscape and an evaluation of the buildings or site's integrity.
	integrity.

Definitions

- Fundamental
- Essential
- Important
- Contributing
- Not-contributing

4 0

Ranking

Based on the information gathered, each building and landscape was assessed and assigned a preservation priority — a ranking identifying the resources level of importance in terms of the University's historic character. The priorities are divided into six groups:

- Fundamental to University history and present character, which applies exclusively to the Jefferson building and Grounds.
- Essential to University history and present character.
- Important to University history and present character.
- Contributing to University history and present character.
- Not Contributing to University history and present character.
- Significant outside the University context.

History

Limes have been used in buildings for a least 7000 years, since at least 5000 B.C. Evidence of remaining structures and ruins we know that the Romans developed lime technology around 2000 years ago. Achievements of medieval cathedrals and castles were dependent upon lime technology.

IT IS ESSENTIAL TO UNDERSTAND BUILDING LIMES FOR THE PROPER REPAIR AND HEALTH OF OUR HISTORIC STRUCTURES.

Limes vs. Cements (OPC)

LIME

- LIME
 Strength (like for like)
 Vapor permeability
 Autogenous healing
 Flexibility
 (accommodates movement structural as well as thermal and seasonal)
 Environmentally friendly (reabsorption of Carbon dioxide CO2)

CEMENT

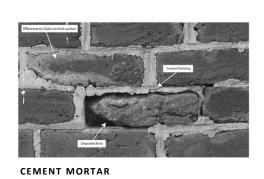

- Hardness
 Non-vapor permeable
 Soluble salts production
- Rigid
- Entrapment of moisture thus causing greenhouse affect producing Unhealthy Building Syndrome
